

MACH MachineTools Ltd provides complete and comprehensive re-build services for Bridgeport turret milling machines and Jones & Shipman grinders (including the supply of new spare and replacement parts for the Bridgeport machines). We can also supply a range of new, high quality machines that include:

- Geared head drilling machines
- Bandsaws
- Grinding machines

All machines supplied by MACH MachineTools Ltd are available at a competitive price. If you are looking to Part Exchange a used machine for a new MACH VS-1 or one of our geared head drills, bandsaws or grinding machines please visit our website www.machmt.co.uk to find details of our terms and to complete a PX Enquiry Form.

Turret Milling Machines

MACH VS-1

Turret Milling Machines

The New MACH VS-1 Turret Milling Machines from MACH Machine Tools Ltd, the new force in the machine tools sector, have now arrived in the UK.

Providing precision component manufacturers with out-of-this-world performance at a distinctly down-to-earth price, these machines are built to the highest standards and are both accurate and reliable.

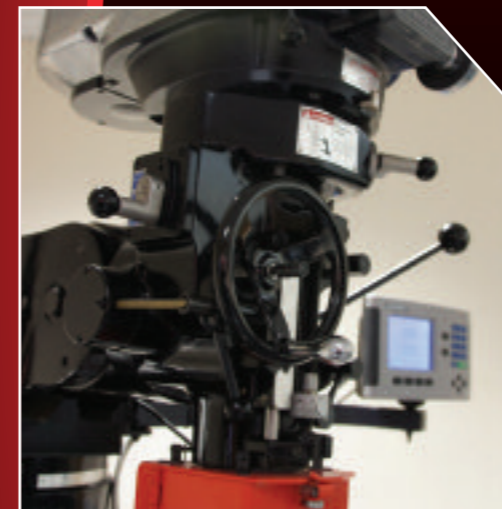

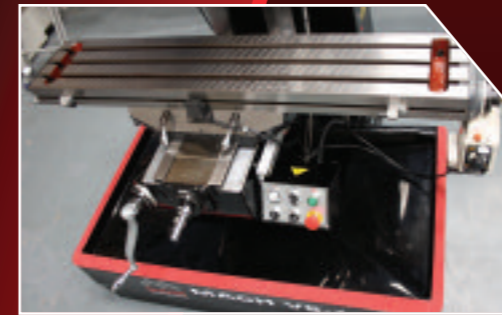

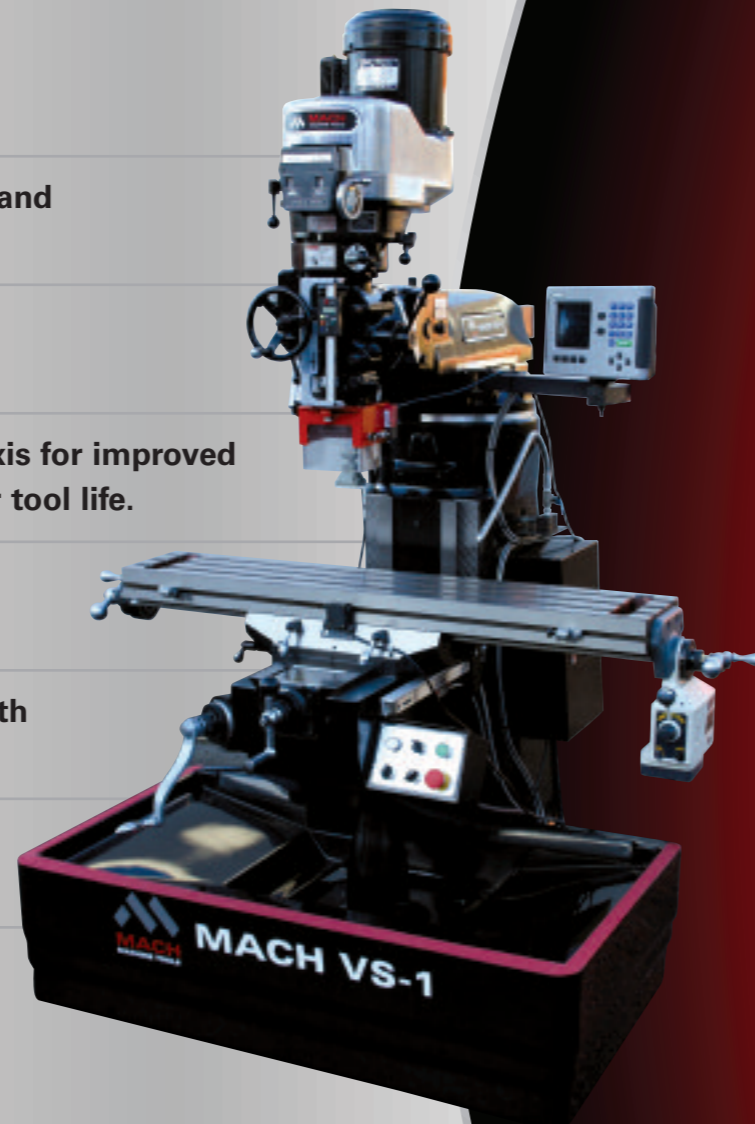

Fully CE compliant and supplied with a comprehensive list of standard features unprecedented in today's market, these machines have a top-end technical specification that includes: a variable speed R8 spindle, Acu-Rite digital readout with glass scales, variable feed to the X-axis, low voltage light, coolant equipment and a stand-on style base splash tray...and are raring and ready to go!

The machines are also supplied with a full operator and maintenance manual pack and a 12 months parts and labour warranty* for additional peace of mind.

If you're in the market for a new Turret milling machine that delivers more than you thought for a lot less than you think – check-out our new MACH VS-1 machines.

HIGHLIGHTS

- Variable speed head for increased flexibility and capabilities.
- Large capacity 48" x 9" (1219.2 mm x 228.6 mm) work table.
- Variable feed with rapid over-ride to the X-axis for improved performance, higher productivity and longer tool life.
- Chrome slide-ways with hardened table top and tee slots for prolonged life.
- Acu-Rite 200S programmable 2-axis DRO with Acu-Rite glass scales for high precision.
- A Silvaflame Cleervue interlocked spindle mounted safety guard.

MACHINE SPECIFICATIONS

• Table travel (X-axis):	800 mm (with power feed)
• Saddle travel (Y-axis):	305 mm
• Quill travel:	127 mm
• Worktable (standard):	1219 x 299 mm
• Centre distance:	64 mm centres
• T-Slot size:	16 mm
• Height above floor (Max.):	1200 mm
• Weight of workpiece (Max.):	340 kg
• Boring range:	152 mm Mild Steel
• Spindle diameter:	48 mm
• Speed, high (infinitely variable):	500-4200 rpm
• Speed, low (infinitely variable):	60-500 rpm
• Floor space:	2.5 x 1.6 m
• Machine height:	2.15 m
• Machine weight:	885 kg

OPTIONS AVAILABLE

Acu-Rite 200s 3-axis DRO

Y-axis Align power feed

6" swivel base vice

8" swivel base vice

Air powered drawbar

Quill star (Quill readout)

R8 metric collet set

Collet sets and spindle tooling packages

Y and Z Align power feeds
